Attached are the transcripts from the public meeting. There is no Dave Hutchins in either speaker's index. However, in the first public meeting, there is an unidentified speaker. We have them listed as #44, unidentified, in our spreadsheet and in the submittal of the PDFs. If you can confirm that is Dave Hutchins, we can tag the comments that way.

Thanks.

K

Nancy,

Here are the public meeting transcripts.

To make PDF files of these, I'd like to do this:

1. Make a copy of the entire transcript for each person who gave a comment.
2. Keep the cover page that shows it was a public meeting.
3. Keep the TOC, but redact the names of the people who aren't the commenter.
4. Delete the remainder of the pages, except the one with the commenter's comments.
5. If the last or first page of their comments also includes the comments of other people, redact those extra pieces.

For the second meeting, EPA had a five minute time limit, but people could get up and speak again after everyone had talked. So some of the people spoke twice. Do the same 5 steps above, but for those people make sure you get the comments at the end. For instance, Fritz Daily will have one comment ID for the whole meeting, not two. The person in the second meeting at the end who is listed as unidentified is the second comment of the meeting from Doug Coe.

Let me know if you have any questions.

Thanks.

K
